VIN: 5TENX22NX9Z654796

Year: 2009 Make: TOYOTA Model: Tacoma

Number of Open Recalls: 1

NHTSA Recall Number: [14V168](#)

Recall Date: April 9, 2014

Manufacturer Recall Number: E1M

SUMMARY:

Toyota is recalling certain model year 2006-2008 RAV4, 2006-2010 Yaris, 2008-2010 Highlander, and 2009-2010 Tacoma, Corolla, Corolla Matrix and General Motors Pontiac Vibe vehicles. In the affected vehicles, the steering column assembly contains electrical connections to the driver's airbag module housed in a spiral cable assembly, which includes a Flexible Flat Cable (FFC). Due to the shape and location of the FFC's retainer, the FFC could become damaged when the steering wheel is turned.

SAFETY RISK:

If the FFC is damaged, connectivity to the driver's air bag module could be lost and the air bag deactivated. The failure of the driver's air bag to deploy in the event of a crash that typically necessitates deployment increases the risk of injury to the driver.

REMEDY:

Toyota will notify the Toyota vehicle owners, and General Motors will notify the Pontiac Vibe owners. Toyota sent owners an interim notification letter in May 2014 to advise owners of the recall. Toyota will mail owners a second letter when remedy parts are available. General Motors has not yet provided a notification schedule for the Pontiac Vibe owners. When the parts are available, dealers will replace the spiral cable assembly, free of charge. Owners may contact Toyota at 1-800-331-4331. Owners may contact General Motors at 1-800-762-2737.

RECALL STATUS: **Recall INCOMPLETE. Remedy not yet available**

MANUFACTURER NOTES:

THIS RECALL DATA LAST REFRESHED: Sep 29, 2014
