VIN: 1FMCU0DG0AKB66528

Year: 2010 **Make:** FORD **Model:** ESCAPE/TRIBUTE/MARINER-LHD

Number of Open Recalls: 1

NHTSA Recall Number: [14V284000](#)

Recall Date: May 29, 2014

Manufacturer Recall Number: 14S05

SUMMARY:

Ford Motor Company (Ford) is recalling certain model year 2008-2011 Ford Escape and Mercury Mariner vehicles manufactured August 18, 2006, through September 11, 2010. The affected vehicles have a steering torque sensor that may not be able to properly detect driver steering input. As a result, the system could remove the Electric Power Steering (EPS) assist.

SAFETY RISK:

If power steering assist is lost, greater driver effort would be required to steer the vehicle at low speeds, increasing the risk of a crash.

REMEDY:

Ford will notify owners, and dealers will update the software for the power steering control module (PSCM) and the instrument cluster module, free of charge. If a vehicle shows a history of a loss of the torque sensor signal or fault codes relating to the PSCM when the vehicle is brought in for the recall remedy, the affected components will be replaced, free of charge. The recall is expected to begin by July 25, 2014. Owners may contact Ford customer service at 1-800-392-3673. Ford's number for this recall is 14S05.

RECALL STATUS: Recall **INCOMPLETE**

MANUFACTURER NOTES:

To check for non-safety-related programs applicable to your vehicle, see www.Ford.com <<http://www.ford.com/>> or call your Ford dealer.

THIS RECALL DATA LAST REFRESHED: Sep 29, 2014
